# IDENTIFICATION INFORMATION

## IMPORTANT

The primary sources of information for ordering replacement parts are the individual parts lists indicated below. To ensure accuracy, it is recommended that the pertinent parts sheets be referenced when ordering Stearns replacement parts. Also, for easy reading and use of this bulletin, part numbers are listed in numerical order.

## Product Related Part Sheets

To fully understand and identify the proper replacement parts and their corresponding part numbers, use the parts sheets listed below. These sheets provide a diagram representing an exploded view of a standard unit, along with descriptions of the basic components. Refer to this information when identifying and ordering replacement parts.
