Dear Addressee,

Please be advised that all Stearns products are classified as an "article" under OSHA Hazardous Communication standard and as such, a MSDS is not required.

Per 29 CFR 1910.1200 Occupational Safety and Health Standards, Hazard Communication;

"Article" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

Please advise if you need additional information.

Sincerely,

Brian L. Van Eimeren
Field Service Manager
