RoHS2 Directive 2011/65/EU, as amended by Directive (EU) 2015/863

Stearns Division believes that, as defined in section Article 2 (4) and Article 3 (3) and (4), Directive 2011/65/EU does not require its products to be certified as compliant. However, the products listed below do comply with the directive commonly referred to "RoHS2". The products below have been evaluated by Stearns and determined to contain less than the maximum concentration values or none of the restricted substances by weight in homogenous materials permitted under the RoHS2 Directive, including:

Chemical	RoHS2 Max Concentration Levels
Cadmium (Cd)	0.01%
Mercury (Hg)	0.1%
Lead (Pb)	0.1%
Hexavalent Chromium (Cr6+)	0.1%
Polybrominated Biphenyls (PBB)	0.1%
Polybrominated Diphenyl Ethers (PBDE)	0.1%
Bis (2-ethylhexyl) phthalate (DEHP)	0.1%
Butyl benzyl phthalate (BBP)	0.1%
Dibutyl phthalate (DBP)	0.1%
Diisobutyl phthalate (DIBP)	0.1%

Products:

- Solenoid Actuated Brakes (SABs)
 - Consult factory for brakes with brass or bronze stationary discs
- All Armature Actuated Brakes (AABs)
- All SINPAC Solid State Switches
- All Super-Mod Electrically Energized Clutch/Brake Modules

Sincerely,

William Hubiak
Director of Engineering
